To Whom It May Concern,

### RE: LETTER OF RECOMMENDATION FOR LUFTER SDN. BHD.

Lufter Sdn. Bhd was awarded through a tender process for the design, construction and validation for a new positive and negative pressure isolation room at our facility for KPJ Ampang Puteri Specialist Hospital. Lufter Sdn. Bhd was also engaged to rectify and validate our CDR clean room facility HVAC system.

Throughout the entire project we have been impressed with their staff on handling the projects and their willingness to listen to all concerned parties in making the projects a success. We have been most impressed that they are able to complete the project within the proposed time line even with the onsite issues that came about.

The success of our projects is mainly due to their experience in the pharmaceutical industry paying attention to details and compliance to necessary standards. Their well versed and proactive engineers also played an important part in giving suitable solutions to problems and in advising our staff.

Due to their experience we have also engaged them in long term service contracts for our Isolation and CDR rooms and are extremely satisfied on their response times and after sales service.

Thank you

Yours faithfully

N. Somasundaram  
Business Development Manager  
KPJ Ampang Puteri specialist Hospital
