F01-CLEANROOM SYSTEMS**

SUBJECT: LETTER OF RECOMMENDATION FOR LUFTER SDN.BHD.

Exyte Malaysia Sdn. Bhd. Has engaged Lufter Sdn. Bhd. for our project at the Dexcom Site in Batu Kawan to design and erect two (2) of the biggest Cleanrooms in Malaysia with a span of 77 x 46 meter without any column.

This cleanroom was designed and built, commissioned and validated to comply with all international standards like HACCP, ISO and GMP . This new greenfield project was executed with a challenging fast track schedule to bring the final product, a diabetes monitoring device to the market to improve millions of patient's life's.

Lufter has delivered this ambitious project within all safety regulation and in a way, quality was always a core value for the project.

Project challenges have always been discussed in a team effort and problems have been turned into solutions provided by Lufter to achieve the project goals.

The Lufter team can be highly recommended for such execution of cleanrooms for the pharmaceutical and medical device industry due to the excellent practical knowledge and competency in design of such projects and his execution.

It was always a pleasure working with the Lufter team due to the focus the team presented and the professional and respectful handling of the contract among the multidiscipline project design and execution team.

Yours faithfully,

Uwe Freitag
Project Director Exyte (M) Sdn. Bhd.
