To Whom It May Concern,

**LETTER OF RECOMMENDATION FOR LUFTER SDN BHD**

I am writing this letter to enthusiastically recommend Mr Simon Loh founder of Lufter Sdn Bhd. With his great leadership and vision, Lufter has become a highly skilled and dependable contractor. Over the past 5 years, I have had the pleasure of working closely with Lufter's team from design to building up a new GMP facility in KLSMC Hospital, where they consistently demonstrated an exceptional level of expertise, professionalism, least to say their commitment to quality.

Lufter has played a pivotal role in ensuring that our facility comply with the requirements of GMP standards in Malaysia. Their deep understanding of regulatory guidelines, combined with their practical experience, has been invaluable in maintaining the integrity of our production environment.

In addition to Simon's team technical expertise, they are also a pleasure to work with demonstrating strong communication skills, a collaborative spirit, and a proactive approach to problem-solving.

I have complete confidence in Simon's and his team ability to bring the same level of excellence to any organization. I highly recommend Lufter Sdn Bhd for any GMP-related projects or roles

Thank you.

Sincerely,
